Editorial Note

I am pleased to introduce the "Oxidants and Antioxidants in Medical Sciences" is an international peer-reviewed, open access that is committed for expeditious publication of articles that draw a compass of the themes related to redox reactions in all fields of medicine. The journal publishes monthly, as it gives a substantial platform to the researches, scientists to share, discuss and explore to the innovatory ideas, developments in regard of the Oxidants and Antioxidants. Also, the journal aims to publish high quality papers which includes original research or brief communications, comprehensive or mini-review articles that reflects new insights and ideas in following areas:

- Oxidation/reduction cycles in biological systems
- Role of reactive molecules in signaling
- Mechanistic approach to endogenous antioxidant systems
- Efficacy of dietary or synthetic antioxidants and their relevance to health and disease
- Actual aspects around classic terms like (nitro)-oxidative stress, oxidative damage, lipid/protein peroxidation, reactive oxygen/nitrogen species, radical scavenging, etc. in redox science

The main objective of the Journal is to provide an original information round the globe. Here we publish all types of the Researches that are specifically related to Oxidants and Antioxidants in Medical Sciences, such that the author can easily publish any form of his or her research based on his feasibility. The forms of researches that can be published in this Journal are mentioned below;

- Review article
- Short Review
- Short communications
- Case studies

- Case series
- Original research articles

The published articles are assigned to Digital Objective Identifier (DOI) – CrossRef. All the published articles journal are included in the indexing and abstracting coverage of: CAS Source Index (CASSI), Index Copernicus, Google Scholar, Sherpa Romeo, Open J Gate, Genamics Journal Seek, Academic Keys, JournalTOCs, SafetyLit, China National Knowledge Infrastructure (CNKI), Electronic Journals Library, RefSeek, Hamdard University, EBSCO A-Z, OCLC-WorldCat, SWB online catalog, Virtual Library of Biology (vifabio), Publons, Geneva Foundation for Medical Education and Research.

Once the manuscript was submitted, the average time between submission and final decision is 21 days and the average time between acceptance and final publication is 14 days. There is a constant support from the Board Members and intellectual indulgence of the readers and contributors i.e., authors and reviewers.

The papers that are being published in this Journal are completely on international basis. The themes that are contributing on Oxidants and Antioxidants in Medical Sciences are noticed with high standard of research by means of significant reviewing process. Hereby, Journal of Oxidants and Antioxidants in Medical Sciences welcome the researches, scientists for submission of manuscripts that meet the Journal's criteria. All the articles are peer-reviewed and will be published soon after the acceptance.

Readers from the major countries including United States, Japan, United Kingdom, India, Egypt and Nigeria visit our journal domain to learn about the on-going research activities in this field. I take this opportunity to acknowledge the contribution of Editorial board members, during the final editing of articles published and the support rendered by the editorial assistants.
