

Awards 2020

Awards of Materials Technology and Manufacturing Innovations

YOUSIF M. MAKEEN*

Professor, Department of Materials Technology, University of Malaysia, Malaysia

Materials-Manufacturing 2020 is one among the worlds largest Materials Science Conferences aims at sharing new advances and new concepts among the industrialists, experts, and graduate students from the scientific arena of Materials Science, Metals and Biomaterials, Nanomaterials, Materials Physics, Materials Chemistry, to share their current developments and applications in different fields and enjoy intuitive talks and specialized sessions at the occasion. Euroscicon Ltd invites all the participants from all over the world to attend '3rd Edition of International conference on Materials Technology and Manufacturing Innovations' during May 18-19, 2020 in Amsterdam, Netherland which comprises of Plenary Talks, Keynote presentations, Oral Talks, Poster Presentations and Exhibitions.

The theme of the conference "Fuelling the core of innovations in Material Sciences" is designed in such a way to explore the latest technologies and Innovations in the turf of Materials Science, Metallurgy and Manufacturing Engineering. The target of Materials-Manufacturing 2020 is to present the latest research and results of scientists related to Mechanical, Materials and Manufacturing efforts. Materials and Manufacturing deals with the multidisciplinary turfs which begin with design, production, and development from raw materials into required specific applications. Materials technology is a constantly developing discipline, and the latest materials with interesting properties lead to new applications. The Materials-Manufacturing 2020 serves as an annual platform to exchange ideas around the impact of market dynamics and new technologies for current and future manufacturing, operations, and supply chain leaders. Whether it is automation, robotics, software, Product Design, 3D printing, wearable's, safety, lean, supply chain, and material handling or augmented/virtual reality the Materials-Manufacturing 2020 is a perfect platform to explore the latest ideas and technologies.

Outstanding Researcher

The award will be presented to the expert researchers who have done exceptional work in the field of Materials Manufacturing 2020. The award is considered the most distinguished award in the whole conference and it is termed as Scientific Service Achievement Award. The researchers should have a minimum of 20 years of research experience in the respective field. The anticipatory awardee should be passionate towards their work, willing to innovate and accept the aberrations happening in the research area with the introduction of recent trends. You can nominate anyone you feel deserving to the award.

The award will be presented to professional researchers in the field of Materials Manufacturing 2020 with most relevant accomplishments. The award is termed as The Research

Contribution Award. The researchers should have a minimum of 10 years of experience in academic or professional research. Part-time research experience would be counted as a pro rata. Doctorate degree is not a must have for this award nominees. They should be hard working, diligent, focused and devoted to the specific field of interest. You can nominate anyone you feel deserving to the award.

Best YRF

The award will be presented to upcoming researchers and scientists in the field of Materials Manufacturing 2020 with a minimum of 10 years of experience. The award is termed as The Upcoming Researcher Award. The researchers with a new and transforming lookup towards research are encouraged. The researchers should bring new technologies and innovations to their work according to the new trends in their field. You can nominate anyone you feel deserving to the award.

Best Discovery

Euroscicon fosters and recognizes research excellence and leadership by recognizing the outstanding researchers, exceptional graduates or early academicians who have distinctive enthralment towards the conference themes. The Award strives in providing a strong professional development opportunity for early career academicians-meeting experts in the field, interacting with colleagues from other parts of the world and creating networks and long-term relations.

Best Speaker

In this category of award, we wish to acknowledge the speakers with great presentation skills, influential research work and long term excellence in the field of Materials Manufacturing 2020. The award is termed as Outstanding Speaker. You can nominate deserving to the award.

The award will be presented to the best keynote speaker with a distinguished research work, projects and strategies that will give a new trend in the field of Materials Manufacturing 2020. The right keynote speaker adds an extraordinary feel to the conference. This award perceives advancement in instructing methodologies and strategies just as in conveying keynote presentation in conference and centers on the uniqueness and creativity that expands member's interests. You can nominate deserving to the award.

Best Poster

The poster presentation with a background provides appropriate perspective/context for the subject. The research design should be appropriate and transparent.

Factual information should be kept separate from interpretations or implications. Student Poster Competition is organized at Conference, to encourage students and recent graduates to present their original research. You can nominate deserving to the award.

Young Scientists

This award is recognition for Masters/PhD/Post Doctorate thesis presentation who will present their projects and thesis that have been implemented to improve long-term excellence in the field of Materials Manufacturing 2020. You can nominate deserving to the award.
