Editorial Note

I am pleased to introduce the Oxidants and Antioxidants in Medical Sciences is an international peer-reviewed scientific periodical dedicated to research around redox interactions in all fields of medicine. The Journal is published quarterly and aims to publish high-quality full-length research papers or brief communications, comprehensive or 'mini'-review articles as well as original hypotheses reflecting new sights and ideas in following areas:

- Oxidation/reduction cycles in biological systems
- Role of reactive molecules in signaling
- Mechanistic approach to endogenous antioxidant systems
- Efficacy of dietary or synthetic antioxidants and their relevance to health and disease
- Actual aspects around classic terms like 'nitro-oxidative stress', 'oxidative damage', 'lipid/protein (per)oxidation', 'reactive oxygen/nitrogen species', 'radical scavenging', etc. in redox science

One of the main aims of the Journal is to supply original information from bench to bedside.

Journal publishes all types of Research like, original articles, review articles, short review, case reports, case studies, case series, short communications, etc. in all areas of related to Addiction Recovery, Drug Rehabilitation, Substance-Related Disorders, Facts About Alcoholism, Drug Addiction Treatment, Psychiatric problems behind addiction, etc and provides free online access to the researchers worldwide.

All published articles are assigned to Digital Object Identifier (DOI) - CrossRef. All published articles of this journal are included in the indexing and abstracting coverage of: CAS Source Index (CASSI), Index Copernicus, Google Scholar, Sherpa Romeo, Open J Gate, Genamics JournalSeek, Academic Keys, JournalTOCs, SafetyLit, China National Knowledge Infrastructure (CNKI), Electronic Journals Library, RefSeek, Hamdard University, EBSCO A-Z, OCLC-WorldCat, SWB online catalog, Virtual Library of Biology (vifabio), Publons, Geneva Foundation for Medical Education and Research.

As such, the journal aspires to be vibrant, engaging and accessible, and at the same time integrative and challenging. Average publication lag time of an article was further reduced to 2-3 weeks. Average download per article is increasing and on an average there are 50 downloads per paper. All these are promising signs. We could reach this stage through the constant support of Board Members and intellectual generosity of the readers and contributors (authors and reviewers).

Association with Omics publishing group has increased Readership Metrics (By Google Analytics) of the Journal which can be accessed at Google Analytics Metrics.

Readers from the major countries including United States, Japan, United Kingdom, India, Egypt and Nigeria visit our journal domain to learn about the on-going research activities in this field.

Manuscripts can be submitted online via Editorial Tracking System or as an E-mail attachment to the Editorial at addiction@clinicalres.org is using Online Review and Editorial Tracking Systems for quality review process and the authors can submit manuscripts and track their progress.

I take this opportunity to acknowledge the contribution of Editorial board members, during the final editing of articles published and the support rendered by the editorial assistants.

Lastly I would like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of the Journal, the office bearers for their support in bringing out yet another volume and look forward to their unrelenting support for the successful release of upcoming editions. Needless to say, any papers that you wish to submit, either individually or collaboratively, are much appreciated and will make a substantial contribution to the early development and success of the journal.

I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of Oxidants and Antioxidants in Medical Sciences, the office bearers for their support in bringing out yet another volume of EJMOAMS and look forward to their unrelenting support to bring out the Volume 10 of EJMOAMS in scheduled time. Best wishes and thank you in advance for your contribution to Oxidants and Antioxidants in Medical Sciences, Akilesh K Pandey, Editor-in-Chief, Garrison Institute on Aging, Texas Tech University Health Sciences Center, Lubbock, TX, USA.
